SKILLS

`core java` `Basic c programing` `MATLAB` `VLSI Design` `Embedded c` `Ms -office` `Internet of Things` `AI`

PERSONAL PROJECTS

Implementation of iot in smart WIFI doorlock. (12/2020 - 02/2021)
- This is type of home surveillance .which is helpful for old-age people and disabled people whos cant position to reached door for open the door. For those people we launched new project which is smart WIFI door lock in this project when some came outside door and pressed the door bell in that time esp-32 cam take picture and send to phone . after seeing picture people can open the door.

Asymmetric Key Image Encryption Using AES Algorithm (03/2021 - 05/2021)
- With the rapid development of network and communication technology, digital image communication has become an important way of information transmission . Thats why we was work on this project.This project take input as a image gave output as same image , in middle way its shows black screen.
